

Decorative Chip

Ultimate One-Day Chip System

Decorative One-Day Chip System

Our full broadcast flake floor systems are popular with installers for their ease of use and versatility. They are great for garages, basements, bathrooms and light commercial environments. Citadel's chip, color and top coat options make creating that perfect floor a breeze!

Polyurea Base-Coat

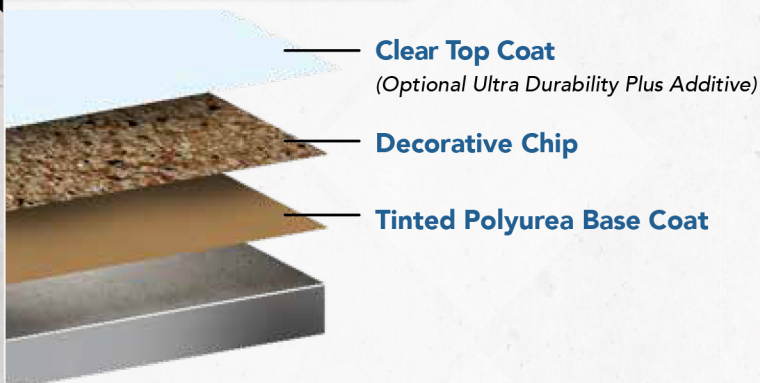

Citadel's two-component primer/base coat is a 98% solids Polyurea with unique physical characteristics that make it a one-of-a-kind product.

Our Adjustable Cure Rate Technology™ allows the installer to customize the workability and cure times of this material for use in any climate. Standard cure times of this revolutionary product can range from 1 hour to 3 hours based on the speed of material used and the temperature at the time of application. This advancement once again shows Citadel Floor Finishing Systems' commitment to being the market leader in easy to apply floor coating systems.

Polyaspartic Top-Coat

Citadel's Polyaspartic Top Coats are two-component, high gloss, UV stable, polyaspartic polyurea floor coating for use in industrial and commercial facilities and are designed to be used as a clear finish over broadcast floors. Suitable for both interior and exterior applications.

System Structure

Decorative Chip Color Swatches

Citadel Floor Finishing Systems offers standard colors of chip in 1/4", 1/8" & 1/16" sizes. Custom chip blends are also available, contact us for more information.
