

Polyurea-350

Polyurea Primer/Basecoat

Polyurea-350 is a two-component, 98% solids, VOC compliant polyurea that was developed as a primer/basecoat for a variety of coating systems, but ideally as a broadcast basecoat. This coating provides exceptional adhesion to a large number of substrates and performs well in a wide range of temperatures and climate conditions.

- Available in three unique activators: Summer (80-90°F), Winter (50-80°F) and Arctic (0-50°F)
- Fast return-to-service time, can topcoat in as little as 2 hours and can accept vehicle traffic in 24 hours
- Can be applied at temperatures between 0°F to 90°F
- Available in Clear, Tan and Gray
- VOC compliant nationwide
