
MEDICI STAIN N' SEAL SYSTEM™
FEATURING THE POLY-ONE SINGLE COMPONENT ALIPHATIC POLYUREA

The **Medici Stain N' Seal System™** utilizes our Poly-One Single Component Aliphatic Polyurea coating that has 100% UV stability and is suitable for both interior and exterior applications. With the Medici Stain N' Seal System you can create a wide variety of decorative finishes that will outlast any other acrylic or acid stain systems currently available. Unique floors are quickly installed using our proprietary **CFFS Dualie™ Roller** and the outcomes are as beautiful as they are strong. Custom texturing is possible via sponge rollers and foam brushes, while the virtually unlimited pot-life of the material allows plenty of time to create the desired look. With endless color combinations available, the installer is truly unlimited in their design and artistic finish. The high solids content and excellent abrasion resistance of the Poly-One make it the optimal choice for all applications.

THE MEDICI STAIN N' SEAL SYSTEM IS IDEAL FOR:
