

COMMERCIAL & SOLID COLOR SYSTEMS

Industry Leading
Polyurea Floor Coatings

Commercial Solutions

Citadel's® Commercial Solutions are renowned for industry leading Polyurea floor coating installations in businesses worldwide. Superior to any epoxy or urethane product available, Citadel's® Commercial Solutions are perfect for non-slip high traffic environments. Its durability, chemical resistance and impact resistance is unmatched by any product on the planet, and all of this with speed that only Polyurea can offer. With our "Adjustable Cure Rate Technology" you'll be walking on your floor in as little as 4 to 8 hours and back to service in as little as 24 hours at any time of year! From nuclear power plants, to restaurants, to manufacturing plants, there's a Polyurea solution for your business.

Solid Color Systems Polyurea-1 HD™

Polyurea-1 HD™ is the workhorse of the Single Component Aliphatic Polyurea family. This optically clear high gloss finish is the core of the Medici® System as well as every topcoat produced by Citadel®. Its 100% UV stability and ultra low VOCs (combined with the unsurpassed durability of all single component polyurea solutions) make it perfect for both indoors and out. The virtually unlimited pot life allows you to work at any pace. The product is self-leveling meaning no roller lines. Available in a matte or high gloss finish.

COMMERCIAL & SOLID COLOR SYSTEMS

Single Component Poly100-SC™

Poly100-SC™ is a Single Component Polyurea primer body coat that's perfect for both solid color and broadcast systems. As a 100% solids primer, it has zero VOCs, making it the ideal solution for minimizing odor and environmental impact. Its virtually unlimited pot life allows for work at any pace, but cures quickly when applied, allowing a mere 4-8 hours walk on time and 24 hour return to service.

Solutions:

- Restaurants
- Bathrooms
- Freezers
- Warehouses
- Salons
- Hangars

Level-Hard™

Citadel's® Level-Hard™ is the newest addition to our easy to install, durable floor coating systems. Developed as an Epoxy Hybrid, this coating exhibits excellent self-leveling characteristics and incredible adhesion to a variety of substrates. Level-Hard is a very versatile coating that can be used as a primer, build coat, broadcasting resin, troweling resin or topcoat. Its 100% solids content is great for leveling of low spots, producing high build films, and creating one-of-a-kind floors when combined with our Citadel's® Pearlescent Metallic™ tints.

Traffic Coat™

Due to its proprietary blend of resins, Polyurea-350™ is a primer/base coat that allows installers to "wet-out" large areas, including vertical surfaces before broadcasting decorative aggregates such as quartz, vinyl chips, or flint. Citadel's® Adjustable Cure Rate Technology allows the installer to customize the workability and cure times of this material for use in any climate.
